The information in this section forms the basis for Lidl's decisions about your personal offers.

#### **4.2.1 Registration on Lidl Plus**

When registering, we request the following personal data: first name, date of birth, email address, mobile phone number and a password. Title and gender are optional. For a convenient login, you have the option to activate the "Stay logged in" function. When activating the function, a permanent cookie (12 months) is placed in your device's browser, which ensures that the account recognizes you the next time you visit it. This cookie can be deleted at any time via the settings in your browser.

If you register with a connected online service without having previously registered with one, you will automatically create a Lidl Plus account. If you are already registered with another online service that is integrated with your Lidl Plus account, you can log in to that online service with your existing login details. If Lidl companies offer new online services in the future, you may be able to use them via your Lidl Plus account. Additional terms of use may apply to individual online services. The Lidl Plus single sign-on feature provides you with an identity across multiple portals that is recognised and verified by the connected online services and that you can manage via your Lidl Plus account. The Lidl Plus account allows you to view, access, manage and correct your data from different online services in one central location. Your Lidl Plus account stores your personal data and information as well as that the one you have provided when using other online services. In this way, all your personal data, login details, voluntarily provided information about your living conditions and interests from the "About me" section, information about the benefits granted, as well as information about stored payment methods and history of purchases and orders, are available for you to view in your account. If necessary, your data will be transferred to the respective online service when you use specific offers in order to enable the easiest possible use of the respective online service and, if necessary, also the execution of the respective transaction.

When you use Lidl Pay via Lidl Plus allows you to activate so-called "two-factor authentication" for all your online services. After you have activated two-factor authentication, you will be asked to enter a verification code every time you log in to your account. This code will be sent to the mobile phone number or email address you have registered with us.

If you no longer want two-factor authentication, you can disable it at any time in Lidl Plus or mark a device as trusted. In that case, however, you will no longer be able to use Lidl. Pays mobile payment service.

#### **4.2.2 Data from Lidl Plus**

If you have voluntarily provided certain information about your circumstances and interests in your Lidl Plus account, the Lidl companies may use that information in various online services (in particular to show you personalized offers there).

#### **4.2.3 Store visits**

Lidl records which store you visited, the products you purchased or returned by type, quantity and price, the coupons and pawnshop checks you redeemed, the total amount of the receipt, the average amount of your receipts over a certain period, how often you purchased them, the time of payment and which payment method was used.

You can either identify yourself at the checkout with your digital customer card or with the mobile phone number you have linked to your account. Coupons in Lidl Plus are only registered if you have activated them in the app under "coupons" before identifying yourself at the checkout.

#### **4.2.4 Customer service**

Information you provide when contacting Lidl customer service may be saved and used later.

#### **4.2.5 Tracking data from online services**

If you have consented to the processing of tracking data in online services for use in Lidl Plus, we will use that information to determine your personalized offers.

Please note our [privacy policy](#).

#### **4.2.6 Product reservation**

If you reserve products via Lidl Plus and then purchase them in store, Lidl collects information about both your use of our reservation service and the products you purchased.

#### **4.2.7 Partner offers**

Lidl Plus gives you the opportunity to receive discounted offers from Lidl partners. As a rule, these offers contain a generic or individualized identification number ("promotion code") issued by the respective partner, which you must enter when redeeming the offer or which is automatically loaded. For some of the offers, you must identify yourself as a Lidl Plus customer using a QR code or your digital customer card. Partner offers are not an offer from Lidl and therefore the receipt and use of the offers are exclusively subject to the respective partner's terms and conditions and data protection information. This means that partner offers from a partner may be changed and/or removed from time to time. The partner companies inform Lidl about the redemption of coupons, vouchers, value codes, etc. If the "Partner benefits" function contains external links (hyperlinks) to third-party websites, these linked websites are solely subject to the responsibility of the respective operator.

If a special offer within Lidl Plus is granted for the procurement of services with our partners, Lidl will have access to your contact information (email address and mobile number) so that we can link the special offer to your account.

#### **4.2.8 Lidl Charge**

With Lidl Plus you also have the option to use charging stations operated by Lidl Dienstleistung GmbH & Co. KG ("operating company "). In order to obtain electricity, appropriate agreements must be concluded with the operating company. To start the charging process with Lidl Plus at one of these charging stations, you must identify yourself with Lidl Plus at the respective charging station and start the charging process. Before starting charging, connect your electric vehicle to the charging point and select the desired charging point in Lidl Plus.

These terms and conditions do not apply to the purchase of electricity or the use of charging stations. In this case, only the specific terms and conditions of the respective operating companies are relevant.

#### **4.2.9 Lidl Pay**

##### **General**

Lidl Plus gives you access to a mobile payment service ("Lidl Pay "), where you can register your debit or credit card. This makes it easy to pay for the goods or services you have purchased with your mobile device at various payment points (e.g. at the checkout, etc.). You can register debit and credit cards from Visa, Mastercard and Maestro for this service. The use of the mobile payment function may be subject to additional terms and privacy notices from the relevant payment providers. The mandatory registration in Lidl Plus takes place in a secure environment.

##### **Card registration process**

You can store multiple debit and/or credit cards for use at Lidl Pay. Before you can register a card for the first time, you will be asked to create a personal passcode. The passcode should not be the same as your card PIN. If you use other authentication methods, the terms of use and privacy policies of the respective provider may also apply (e.g. the TouchID or FaceID functions from Apple). After you have made your first card registration or added additional cards, you will be redirected to a secure website of the payment platform provider for card registration in Lidl Plus. Here you have the opportunity to enter the required information such as card number, validity period and debit/credit card verification number (CVV2). Once the registration has been confirmed in the form, i.e. after the payment service provider has checked the information and you have approved with Bank-ID, a so-called token is generated and stored in your Lidl Plus customer profile. The token is an identification function that does not contain any card details and is only used to assign the registered card with the payment service provider to your credit or debit card during a transaction.

Upon successful card registration, the payment service provider Lidl sends, in addition to the token, the first 6 or 8 (depending on the length of the IBAN number) "Bank Identification Number ") and the last 4 digits of your card number and the card's expiration date and links them to your Lidl Plus customer profile.

## **Payment process**

When you open your digital Lidl Plus customer card, you can use a checkmark button to indicate that you want to use mobile payment at checkout. This setting will be retained until you change it again. However, this does not apply to payment at a charging station. If you have selected mobile payment, you must enter your passcode before each payment process to generate the digital code. The code is valid for 15 minutes. After 15 minutes, you must create a new code.

During the payment process, the token identifying your debit/credit card is sent to the payment provider along with the amount to be paid and other transaction-specific information. Once the transaction has been confirmed, your purchase of goods or services is completed and you receive an invoice with the relevant card transaction details, just like with any other purchase of goods or services using a debit or credit card.

In order to be able to carry out the payment transaction in accordance with the provisions of Directive (EU) 2015/2366 ("PSD 2"), applicable national implementing laws and Delegated Regulation (EU) 2018/389, we enable, with the help of our service providers, your credit institution or the institution that issued your payment method ( e.g. your debit or credit card) to perform customer authentication and preliminary risk analyses in order to assess the need for such customer authentication. This is to ensure that you yourself are using the payment method and not someone else with improper intentions. This information specifically concerns data about you, the current transaction and your previous payment behavior.

## **Caution when handling passcode**

You are obliged to protect the passcode that you have entered for mobile payment, which means (1) not to forward the passcode to third parties, (2) to keep the passcode separate from your mobile phone and in particular (3) not to save the passcode, for example in your phone's note function.

## **Blocking Lidl Pay**

Lidl has the special right to block your Lidl Pay, especially if any of the following apply:

- If this is necessary to protect our or the payment service provider's legitimate interests,
- in the event of misuse or fraudulent use of Lidl Plus or Lidl Pay or if there is suspicion of abuse or fraudulent use of Lidl Plus or Lidl Pay,
- provided that you or customer service have deactivated the so-called " two-factor authentication " for your Lidl Plus account. With two-factor authentication, you will be asked to enter a verification code every time you log in to your account. This code will be sent to the mobile phone number or email address you have registered with us.

Blocking Lidl Pay means you can no longer process payments through Lidl Pay. If possible, we will inform you about a blocking of Lidl Pay before blocking and state the reason. The same applies to unlocking.

### **Deactivation of Lidl Pay**

We have the special right to deactivate Lidl Pay for you, especially in the following cases:

- About the Lidl passcode Pay or if the credit or debit card expiration date was entered incorrectly five times in a row.

If your credit or debit card has expired. A Lidl deactivation Pay means you can no longer process payments through Lidl Pay.

### **Forgotten password**

If you no longer remember your Lidl Pay passcode gives you the opportunity to change your passcode without losing the information you have entered.

Depending on the payment details you have saved with Lidl Pay you must do a single or double security check to enter a new passcode. The security check may include requesting payment details, validating the mobile phone number or other details such as the expiry date of the registered debit or credit card.

## **4.3 Data analysis**

Lidl compiles the data described in [section 0](#) We evaluate the data in order to identify and send information that may be of interest to you. We use mathematical and statistical methods to determine potential product interests, taking into account our product range. For this purpose, your personal data will be compared with the personal data of other customers. Based on this comparison, we can determine which other products and campaigns other customers with similar interests have shown interest in and may therefore be of interest to you. Lidl does not undertake any legal obligation to ensure that the data processing always works in the manner described above. With your consent, we create analyses of your use of the app and user segmentation profiles. We assign this information to you for the advertising purposes covered by this agreement. This also gives us general insights into how we can optimize our app and how successful our advertising campaigns are. We provide our advertising partners with statistically processed anonymous data about the success of their advertising campaigns for billing purposes. Our advertising partners cannot trace the information back to you personally (for other data transfers, please see our Lidl Plus privacy policy).

To pique your interest in product categories you don't normally buy, you can get offers for other product categories in Lidl Plus. It is likely that customers will get different discounts for the same product category to test Lidl's commercial campaigns.

## **5. General terms and conditions for use of the service**

Due to the constantly changing product range on the mobile device market, Lidl Stiftung cannot provide a current list of all mobile phones with which the services can be used.

In the event of slight negligence, we are only liable in the event of a breach of a material contractual obligation. In this case, liability is limited to the typical and foreseeable damage at the time of conclusion of the contract.

The limitations of liability apply accordingly for the benefit of our employees, agents and vicarious agents.

Our liability for warranties expressly designated as such and for claims based on product liability law remains unaffected by the above.

In all other respects, all liability on our part is excluded.

For example, Lidl Stiftung may also terminate the contract within the 14-day cooling-off period without giving any reason. The right of both parties to terminate the contract for valid reasons remains unaffected by this. Termination by the Lidl Foundation occurs in particular if the user violates the provisions of these terms and conditions of participation. Until such incidents have been clarified, user data may be blocked. In particular, in the event of incorrect information, we reserve the right to delete your Lidl Plus account. The parties' right to extraordinary termination for valid reasons remains unaffected.
